4. Rotate the focusing ring ⑥ until the image is sharp and clear.

5. Turn off the LED at the end of the observation by pressing the LED switch ⑤.

## 4) Product specification

Magnification: 60x - 120x  
Exit pupil diameter: 10mm - 14mm  
Optical zoom: 2x  
Power: 1 x AA battery  
(not included)

Illumination: LED  
Size: 59mm x 30mm x 92mm  
Weight: Approx. 50 grams  
(excluding batteries)

## 5) Warning

1. To avoid possible permanent eye damage, do not look at the sun or bright objects with the microscope.
2. To avoid possible permanent eye damage, do not place the lighted microscope directly upon human eye.
3. Remove the battery before storing the microscope for an extended period.
4. The device may get warm after extended period of use. This is normal and should not be considered as a defect.
5. Inspect all batteries for signs of corrosion or leakage. Do not expose to fire or excessive heat. Use alkaline batteries only, rechargeable batteries not recommended. Insert battery in the direction indicated.
